Work experience: Technologies and Responsibilities

10-2021/present SoftServe Application Architect in Center of Excellence	Working with clients to gather requirements, prepare architecture, plan development, prepare offer, analyze existing systems and propose improvements and cost optimization. I work with all possible solutions in Microsoft technology stack but also with mobile applications and cloud applications (mostly Azure but all clouds are alike, and I already worked with GCP and AWS)
09-2020/09-2021 CloudState	I work as a trainer, presenter, developer, consultant in variety of projects. One of bigger project that I was helping to develop (dev and architect) was .NET Core 3 , Azure Active Directory , MediatR , modular monolith , Azure Infrastructure . Most of my work is just solving client's problems and finding what's wrong with their projects , architecture , infrastructure or code , Azure resources in cost and performance point of view.
02-2020/09-2020 My own time work	Creating online content, reading and expanding knowledge. .NET Core trainer for Symantec.
01-2018/02-2020 Sienn Software Developer	Cross-platform mobile application development using Xamarin Native, Xamarin Forms, AppCenter, Git, MVVMCross. Azure architecture and administration. Creating architecture for whole projects and modules. Azure cost estimation, Infrastructure planning and implementing (ARM templates). Creating CI/CD pipelines. Azure DevOps administration.

	Backend development using .NET Core, Azure functions, Azure Service Bus, IoT Hub for IoT project. Technologies: Xamarin, Xamarin.Adroid, Xamarin.iOS, MVVMCross, Azure, Azure Functions, Azure ARM templates, REST services, Azure DevOps , push notifications, HockeyApp , Fody, Git, HockeyApp, AppCenter, Azure IoT Hub, other Azure services.
08-2015/12-2017 Billennium Senior Software Developer/ Xamarin Dev Tech Lead	Creating cross-platform mobile application using Azure Cloud backend and Xamarin platforms. Architecting both application and cloud structure. Managing Azure and VSTS resources. Building continuous Integration and delivery upon VSTS and Azure, Integrating mobile application with REST and OData API. Creating unit tests with NUnit and Moq. Maintaining applications on Google Play and iTunes/TestFlight. Technical leading of 5 Xamarin developers' team, managing their work and mentoring. Implementing email templates and messages sending manager. Technical training Azure for company clients. Technologies: Xamarin, Xamarin.Adroid, Xamarin.iOS, Azure, MVVMCross, WebApi, REST services, OData , push notifications, services secured with TLS 1.2, Xamarin Insights, HockeyApp , Fody, Git, VSTS , Raygun, HockeyApp, Mobile Center
11-2014/01-2015 Future Processing Senior Developer	Windows Phone Universal Application, Xamarin, Window 8.1, Windows Phone 8.1, XAML, MVVM, MvvmLight, WebAPI, REST services.
11-2012/10-2014 SMT Software Developer	Technical leading team of 5 coworkers. ASP.NET MVC 4, Entity Framework 5 Code First, MSSQL , Unity-IoC, Design Patterns, WCF (REST and SOAP), secured communication WCF to WCF, Unit test with Moq. Continuous Integration with TFS and Jenkins . TFS ALM. White label web application (http://www.loft4brands.com/) ASP.NET MVC 3.5 and 4, Entity Framework 4.1 and 5, MSSQL, WCF (SOAP and REST), Unit tests with Moq, JavaScript communication with Java applet. Work in scrum[but] methodology. English speaking distributed team.
12-2011/08-2014 Agenda Live Tile My own time project	My own idea in form of Windows Phone applications Windows Phone 7.5, MVVM, XAML, .NET 4, XML, Live SDK, Telerik, Visual Studio
06-2009/present My own time project / DrewLamp	www.Sklep.DrewLamp.pl – nopCommerce, MSSQL, ASP.NET 3.5/ASP.NET 4 MVC, CSS, hosting Webio.pl, Photoshop , CSS, HTML, PhotoShop, XML <i>Work based on the principles of voluntary</i>
04-2011/03-2012 SMT Software Software developer	Scrum, Win Forms multithreaded application .NET 3.5, WCF – as a self-hosted service, File operations (XML), integrating .NET application with C++ application, TFS
03-2008/03-2011 S&T Services Polska Sp. z o.o. Senior software developer	UML, internal (company specific) framework for applications – creating interfaces, base classes, windows scheme, custom controls. Additional info

Interest in new technologies. Have my limitations like not so good with prolonging stress. I'm focusing on project but still very fond of mentor role. I'm a co-founder of **Silesian Microsoft User Group**, passionate programming community activist, event organizer. **Public speaker** and trainer, my presentations log you can check at <https://jlamch.net/#speaking>, **blogger** at <https://www.programistkaiKot.pl/> and **Youtuber** at: <https://m.youtube.com/c/ProgramistkaiKot> In my free time I like to read, walk/run and cycle. I have two cats so no more time ☺
